PETITION TO THE SFCC

We petition the Community Council to hold a public meeting in May, to address the issues raised by the community, and hold the Trust Directors to the commitments they made at the Trust AGM.

1. To hold a public meeting to allow the community to express and discuss their concerns on the way in which the trust presently functions. As well as their opinion on and how it should function in the future - a commitment made by all Trust directors at their AGM
2. For the Trust directors to list and fully explain the differences between the old constitution and the new constitution which they fully committed to do at the public meeting.
3. For the Trust directors to listen to and fully take on board the opinions of the community on how the Trust should function in the future, amending said proposed constitution before it is adopted, again a commitment made by them at the AGM.
